**Letter from J. G. Buyers**

**Dear Reader,**

With pleasure I have again another to take a "peep" at the many numbers of a newspaper as I read the latest papers. I have the honor of being a subscriber to the Free Press ever since I was a child, and have always looked forward to seeing it when I was a boy. We usually get the Free Press here, but we get it from a distance, and it is sometimes a few days old by the time we get it. I know you will be interested to see what the Free Press is all about, and I will try to give you a description of what I have read.

On the 1st of July, 1873, I was born in a little village in the western part of the state of New York. My father was a farmer, and my mother a teacher. I was the eldest of five children, and had seven younger brothers and sisters. I was a quiet, studious boy, and was always interested in reading and learning.

I attended school for a few years, and then went to work on the farm. I worked hard, and was always eager to learn new things. I was a good student, and was always interested in reading and learning.

I have always been interested in the Free Press, and have always enjoyed reading it. I have read it for many years, and have always found it interesting and informative.

I hope you will enjoy reading it as much as I do. I will try to give you a description of what I have read, and I will try to give you some ideas on what you can do to improve your reading and learning skills.

Yours truly,

J. G. Buyers

**Reception of Alumina-Association, C.N.C.**

At the Palais de Chaillot, Rome, Thursday, May 5th, was held the annual meeting of the Alumina-Association of the C.N.C., with a large and distinguished assembly.

At the meeting, the new officers were elected, and the following resolutions were adopted:

1. That the Association be continued.
2. That the officers be re-elected.
3. That the Association be empowered to enter into negotiations for the purchase of additional alumina.

The meeting adjourned at 9 o'clock, A.M.

**Techology, Holds Quarter-Centennial Celebration**

Atlanta, Ga.—The Georgia School of Technology is expecting to entertain a large number of guests from all parts of the country during its quarter-centennial celebration. Eleven sections of every department will be represented, and the ceremonies will be highlighted by a grand entertainment to be held by a Southern invasion. All events that could possibly be expected are set to help make this event a success.
